PLENTY OF WORK, SAYS SEC-RETARY WILSON.

Specific Request for More Than 80,000 to Help Harvest Big Wheat Crop Reaches Him.

Washington, D. C .- More jobs than men throughout the United States was predicted by Secretary of Labor Wilson, in sizing up the general labor

The bumper wheat crop, revival of the iron trade, with the consequent stimulation of mining and other assoclated industries, and continued activity in the textile business are given by Secretary Wilson as his reasons for prophesying "lots of work."

Specific requests for more than \$0.000 men to help harvest the big wheat crop have already reached the department of labor Missouri alone has asked for 10,000 men. How to get them west is the problem. As a solution Secretary Wilson is planning to negotiate with the railroads to arrange special excursions to the wheat belt from eastern cities, where labor might be obtained.

"Such a plan would give thousands in the east a chance to get a rural vacation and make money while tak ing it," said Secretary Wilson, "It also would effectually move the problem of how to get men to harvest the wheat.

Western farmers are offering \$1 to \$2.50 a day and heard for barrest

Smoke and Ashes Thrown 2,000 Feet High and Two New Craters Are Opened-Snow Capped Peak Covered With Ashes.

Redding, Cal.-Mt. Lassen finally erupted with voicanic fire and one man was killed, one injured as result of the terrific outburst from the crater which had been latent for many years. Two new craters, in addition to one blown open May 30, burst from the mountain side. Fire from them was seen from roofs here, at Volta and other points. This was regarded as establishing the nature of the outbreak, which huberto has been ascribed to geyser action.

A previous eruption early in the day came from the crater of May 10.
